

CNS 1500 Plus LCD

CONVECTORS

PRODUCT-NO.: 205856

Perfect combination of heat and good looks Even in small or cramped rooms, you shouldn't have to miss out on cosy warmth. This heater not only reliably takes care of all that but looks really good too. Its high quality appearance ensures that the convector fits well into virtually any living space. But it's not just the attractive design that will impress you. The functionality will too.

Efficient temperature delivery The wall mounted appliance heats up the indoor air in your home evenly, silently and to precisely the right temperature. The easy-to-read display makes it exceptionally user friendly. Here, you can select your preferred temperature and program any time control settings you may require. So you can be sure that the convector only heats up the room when you actually want it to.

The main features

Wall mounted convector – ideal as a supplementary heater or interim heater in spring/autumn

Quiet, even temperature distribution

Attractively designed metal casing

Operating controls with illuminated LCD screen

Weekly timer, frost protection and open window detection

Self-learning room temperature control: automatic calculation of the preheat time in timer mode

ON/OFF switch and overheating protection

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
